

Summit Valve and Controls

ANNOUNCEMENT

We are pleased to announce that **Summit Valve and Controls** has added **Yokogawa Canada** to our product lineup. **Yokogawa Canada** offers a complete line of instrumentation products and process control solutions that will complement our existing portfolio of instrumentation and valve automation solutions.

YOKOGAWA  **Co-innovating tomorrow™**

Yokogawa Canada is a global leader in process control instrumentation solutions for all industries and markets. They provide solutions for analytical, control, data acquisition, flow, pressure and temperature. **Yokogawa Canada** offers a wide variety of digital communications for optimizing processes. Yokogawa products are used in various industries including Oil & Gas, Petrochemical, Pulp & Paper, Mining, Chemical, Food and Beverage, Water and Wastewater, and Power.

The agreement is effective June 12, 2020 and offers exclusive representation of all Yokogawa products in all Summit territories in British Columbia, Alberta, Saskatchewan and Manitoba.

Summit is happy to have Charlie Johnson, Business Development Manager, leading our instrumentation solutions team. Prior to joining the Summit Team in 2014, Charlie was **Yokogawa Canada's** first employee in 2004. As part of his duties, Charlie was charged with developing and growing the Canadian partner network for **Yokogawa Canada**. He was instrumental in working directly with channel partners and customers across Canada in growing and establishing the **Yokogawa Canada** brand. Charlie will bring a renewed spirit, excitement and familiarity in reestablishing the **Yokogawa Canada** brand alongside **Summit Valve and Control's** proven customer service and support to the Western Canadian market.

With headquarters located in Edmonton and regional offices in Port Coquitlam, Saskatoon and Winnipeg, **Summit Valve and Controls** has been a key player in the western Canadian market for over 26 years. Our customer service and support network has been a key component to our success, and we look forward to working with the **Yokogawa Canada** team to grow their complete line of quality instrumentation in all our assigned territories and markets.
